

Northland Reliability Project

Project Updates

Itasca County, June 2024

Northland Reliability Project

**Double-circuit
345-kV line**

**Over 85% co-located
with existing HVTL**

180 miles

**Expanded and new
substations**

MISO-approved project: part of a regional plan

Fulfilling a need

Maintaining reliability

Provide system support as energy resources continue to evolve.

Enabling clean energy

Increase capacity to safely and reliably deliver clean energy from where it's produced to where it's needed by our customers and members.

Strengthening resiliency

Enhance system resiliency during extreme weather events.

Enhancing flexibility

Plan proactively to meet changing customers' and members' power needs due to decarbonization and electrification.

Two main project segments

- **Segment one:** Iron Range Substation to Cuyuna Series Comp Station to Benton County Substation
- **Segment two:** Benton County Substation to Big Oaks Substation

Legend

- | | |
|-------------------------------|-------------|
| ▲ Expand existing substations | Segment one |
| ■ New substation | Segment two |

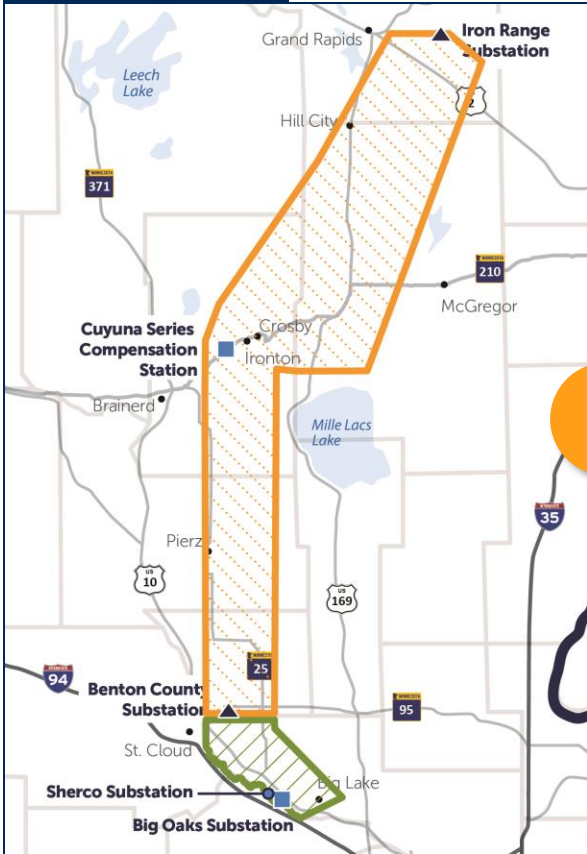

Our routing process & input opportunities

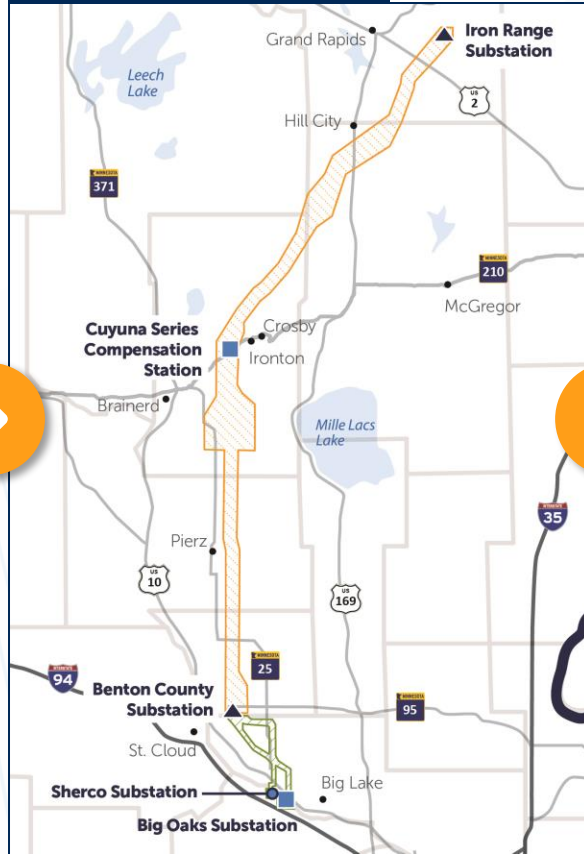

Route Development

Study area

Route corridor

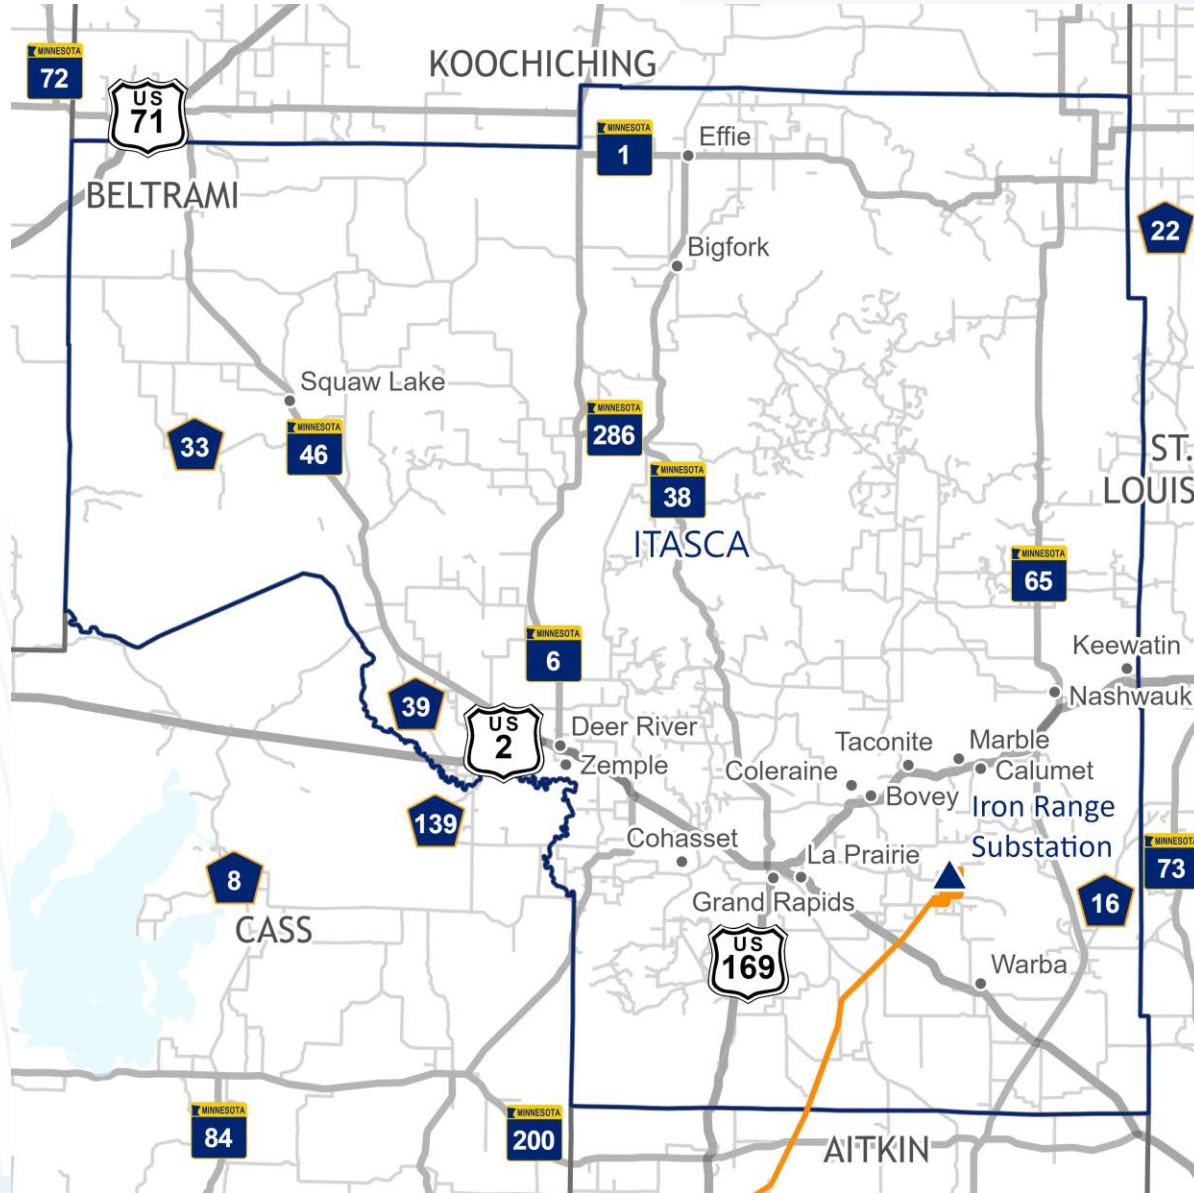

Preliminary route

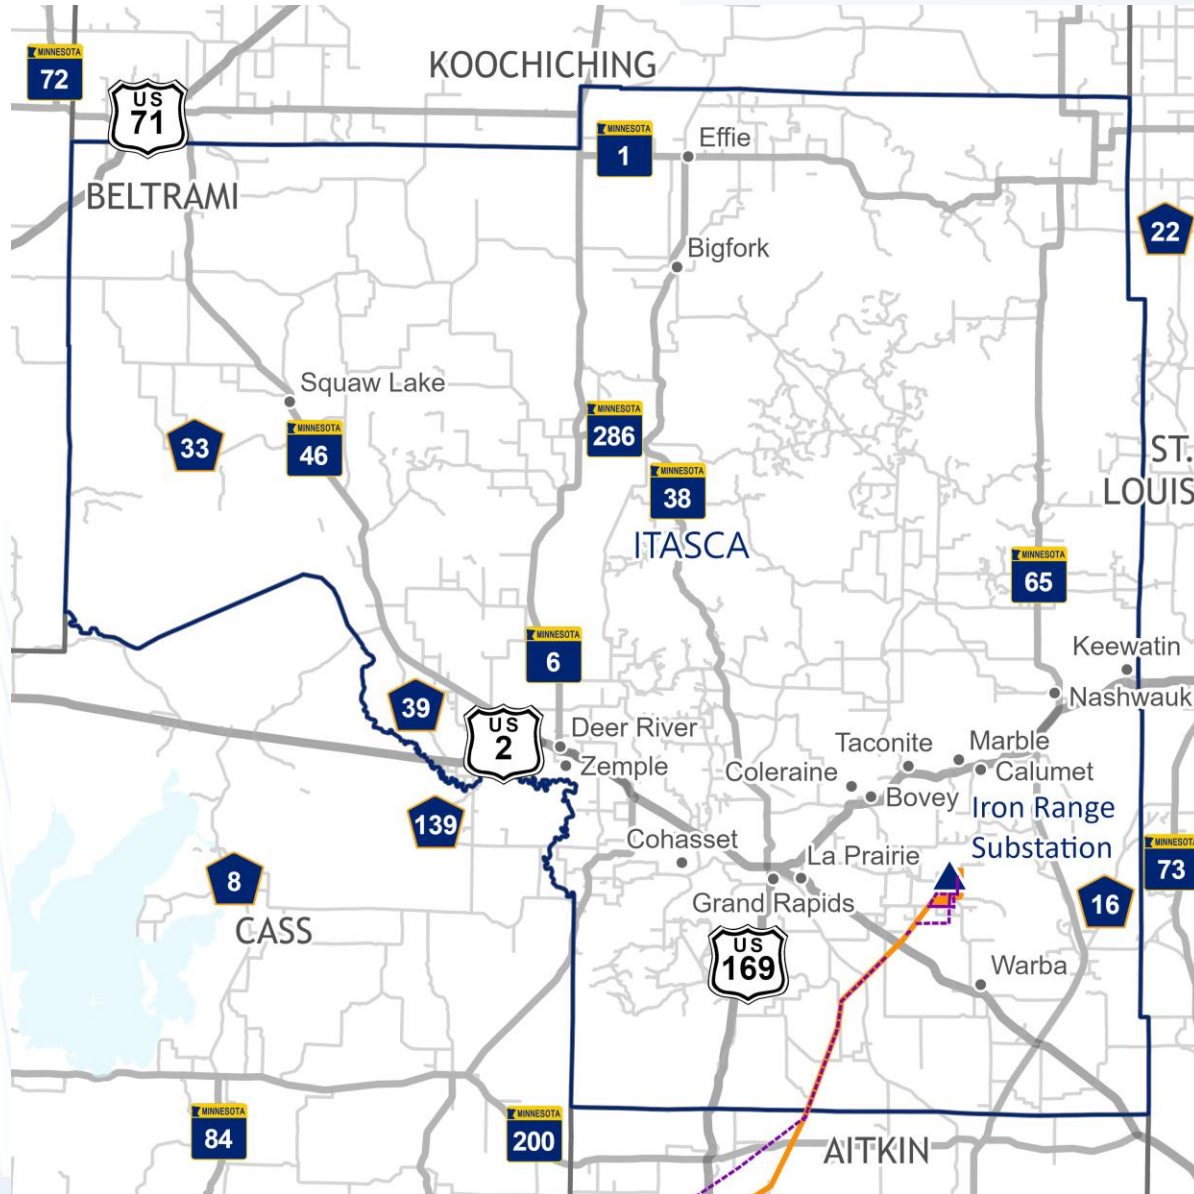

Proposed route

Proposed Route – Itasca County

Route Alternatives – Itasca County

State Regulatory Process

- August 2023 - Submitted a joint Certificate of Need and Route Permit Application to the Public Utilities Commission (PUC)
- October 2023 – PUC/Department of Commerce (DOC) public scoping meetings
 - Collected public feedback on the proposed routes and consider route alternatives
 - Identified route alternatives being evaluated in the Environmental Assessment (EA)

Visit

edockets.state.mn.us

- Certificate of Need: docket **22-416**
- Route Permit: docket **22-415**

State Regulatory Process

- June 2024 – DOC publish EA
- July 2024 - Administrative Law Judge (ALJ) hold public hearings across the project area
- Fall 2024 - ALJ report with recommendations to the PUC
- Late 2024 - PUC decision on route permit

- Certificate of Need: docket **22-416**
- Route Permit: docket **22-415**

Field Surveys

Started
October 2023

Continuing
May – November 2024

Continuing
Into 2025

**Landowner notices provided in advance of surveys*

Types of surveys

Biological

Wetlands

Land

Cultural
resources

Noxious weeds

Soil borings

**Acoustic detectors
for bats**

Real Estate Process

Right-of-entry
2023 – 2024

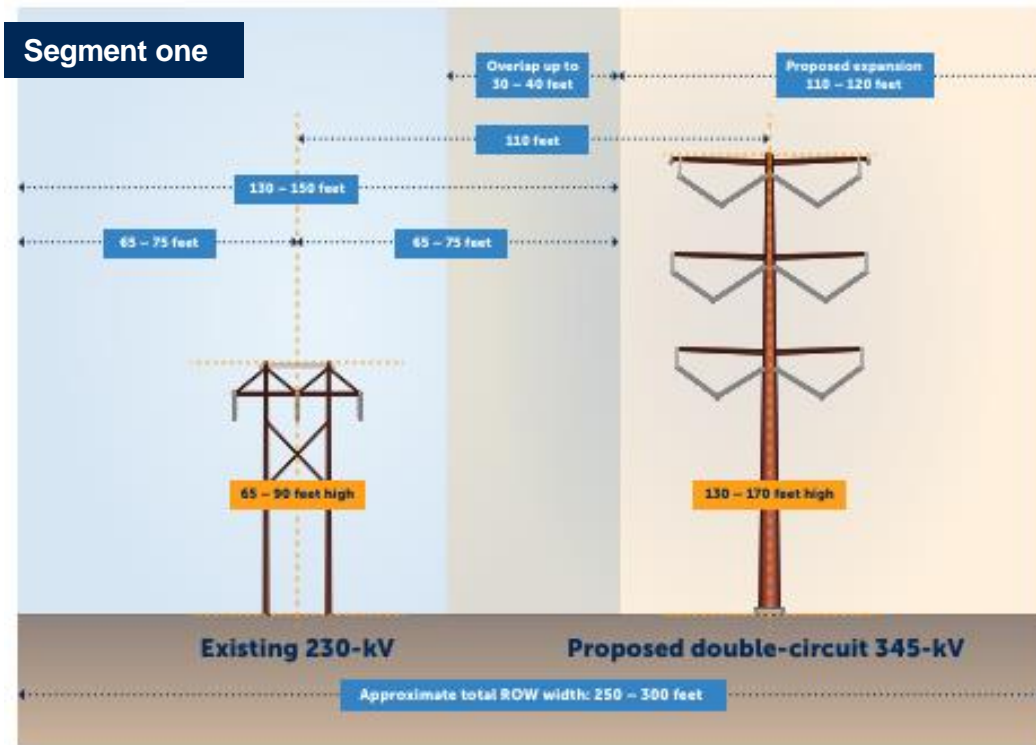

Easements
2024 – 2026

Construction
2025 – 2030

Restoration
2027 – 2031

Upcoming Project Milestones

PUC/DOC EA and public hearing

Engineering design for substations and transmission line

State and federal permitting efforts

Environmental field surveys in Segment 1 in Spring and Fall 2024

Anticipate construction starting on Segment 2 in Fall 2025
