### **Meeting Information**

Doors will open one hour prior to each in-person hearing. Attendees will have an opportunity to review maps and materials for the project and ask questions of the Applicants and state staff. During this time, comments made by attendees will become a part of the record for consideration only if the attendee submits the comment in writing. Forms will be available for this purpose.

The public hearings will be conducted by an administrative law judge with the Office of Administrative Hearings, who will provide the Commission with findings of fact, conclusions of law, and a recommendation.

The purpose of the public hearings is to obtain public input on the proposed project and compile the record for the Commission to consider in making a final decision on the certificate of need and route permit application. Specifically, interested persons will have the opportunity to: (1) ask questions of state staff and the applicant; (2) offer oral and written comments on the merits of the proposed project and on the environmental assessment; and (3) suggest possible conditions to be considered for inclusion in the route permit.

- Comments received at the hearings and during the comment period will be used to inform the record and help the Commission make its final decision.
- The information presented will be the same at all in-person and online hearings.
- The hearings will end when all attendees have had the opportunity to comment and all other business has been concluded, or the scheduled end time of the hearing, whichever occurs first.
- Members of the public may participate without the necessity of intervening as a party; representation by legal counsel is permitted but not required.

### **Comment Period**

Written comments will be accepted through **August 5, 2024, by 4:30 p.m.** Please include the docket number in all communications. Comments received after the close of the comment period may or may not be considered by the Commission.

### Topics for Comment

- If granted, what additional conditions or requirements, if any, should be included in the certificate of need?
- Should the Commission grant a route permit for the proposed project?
